EMORY  
COLLEGE  
OF ARTS AND  
SCIENCES

**Call for Applications to New Emory College - Beckman Undergraduate Research Fellowship in “Interdisciplinary Undergraduate Research in Computational Neuroscience and Cognition”.** This is a highly prestigious merit-based fellowship with support for 2 summers and one academic year of research, conference travel, and more besides (\$14,200 total support) funded by the Beckman Foundation.

To be eligible you must:

- Have a GPA > 3.5
- Be a US citizen or permanent resident
- Be able to do full time research in the summers of 2017 and 2018

The research project will start with 2 rotations in the labs of faculty participating in this program and will then continue in one of these labs or in a collaborative project between both labs. The training program also includes a Journal club and Methods clinic series, a fall weekend retreat, and required classes.

Participating Faculty Mentors are: **Biology:** Gordon Berman, Dieter Jaeger, Robert Liu, Astrid Prinz, Sam Sober; **Biomedical Engineering:** Shella Keilholz, Lena Ting; **Physics and Biology:** Ilya Nemenman; **Psychology:** Daniel Dilks, Robert Hampton, Joseph Manns, Lynne Nygaard, Philip Wolff.

Application materials ([deadline date February 15, 2017](#)):

- Your Resume (needs to state US citizenship or permanent residency and include previous research experiences).
- Unofficial copy of transcript (from Opus)
- Statement of Interest in this Program (max 1 page – include research topics you would like to pursue and faculty names among participating faculty)
- Name of faculty reference (major advisor, instructor, research advisor)

For pre-application enquiries please email Dieter Jaeger at [djaeger@emory.edu](mailto:djaeger@emory.edu). Applications are also submitted to this email address. Selections are expected by March 15, 2017.
